

# ENG201 Digital Deadline #3: Assignment #22 (7 points)

Name \_\_\_\_\_

Your third task for the final digital/website project will be to design your main page. This main page will work to introduce all three of your different webpages. You should be able to finish the assignment in the lab but **it will be officially graded on Wednesday, May 8 at 6am**. Feel free to repeat the abstracts that you have already written on your webpages.

After today, we have one last lab day. On that last lab day, we will work on the homepage. You can start working on the homepage now since only one person can work on it at a time.

<b>The Tasks to Receive ALL 7 Points for Mainpage</b>	<b>Check Here When Task Is Done</b>
1. On the main page for my section, I have an interesting title for this entire section that works in tandem with what my colleagues have used as their section titles. My header also displays my title.	
2. On the main page for my section, I have written 150-200 words that explains all three of my subpages in this section. (I might have even used my abstracts from the subpages for consistency and repetition).	
3. On the main page for my section, I have also weblinked to my About Me page in a way that works with the page's design.	
4. On the main page for my section, I have a background image for the section break that highlights the digital justice essay. The image adds to the message of that essay. If the image is not my own, then I give a URL somewhere showing the source of the image.	
5. On the main page for my section, I have a background image for the section break that highlights my essay #2. The image adds to the message of that essay. If the image is not my own, then I give a URL somewhere showing the source of the image.	
6. On the main page for my section, I have a background image for the section break that highlights my essay #3. The image adds to the message of that essay. If the image is not my own, then I give a URL somewhere showing the source of the image.	
7. On the main page for my section, I have included the title for each of my three essays in each page break. I proofread and edited according to whatever language varieties I am using. I weblink to each essay in the corresponding page break.	
<b>Final Points for Digital Deadline #3</b>	

**NOTICE #1:** The points for the digital project are FINAL. However, you can take any ONE point-spread (like this one) and revise that assignment. Please retain each and every point spread (or scan it). On the last day of class, **May 13**, re-submit that ONE point-spread if you want a re-grade. If you do not have the point-spread, you will not receive the re-grade. **NO EXCEPTIONS!**

**NOTICE #2:** For any webpage that you create with this final project, you can go to the writing center (WC) and have a tutor look over and copyedit your page so that it is perfect. Each time that you go to the WC, you will receive 2 extra credit points for the class. Make your appointments now--the writing center fills up fast at the end of the semester. Hold on to your attendance ticket and submit it (that's your proof of WC attendance).
